Primary Years
Programme

Kindergarten Screening

At **McKinley Elementary** we believe that kindergarten should raise the bar on student readiness! Our classes are designed to go beyond a basic structure of kindergarten, preparing our students to be successful learners and citizens. Our full day program develops International mindedness through inquiry and project base learning. McKinley is the **first International Baccalaureate World School in Lake County!** Visit our website to learn more about this prestigious program.

Screening

Dates

August 23, 2023

&

August 24, 2023

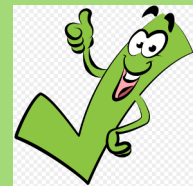

Why Attend Screening? Kindergarten screening gives the teachers (and parents) an opportunity to assess a child's skills prior to entering kindergarten. Through a series of fun but informative tasks, we are able to determine a child's developmental readiness for the school age setting.

We will provide you with an **individualized report** of your child's skill progression, including ideas and activities to strengthen academic and social skills.
