

Dear Skipper Families,

I need to make you aware that on March 18, 2020, a parent called the school to self-report that they have been diagnosed with the COVID-19 virus. We are sharing this information with you because the parent attended March 12, 2020, parent-teacher conferences at McKinley Elementary. They did not have any interaction with students. We have contacted the Lake County Health Department for further guidance and we will keep you apprised of any further developments. Until then, please adhere to all prescribed safety procedures such as social distancing, hand-washing, and all other CDC guidelines. If you have additional concerns, the Ohio Department of Health has opened a call center to answer questions about COVID-19. The call center is open seven days a week from 9 a.m. to 8 p.m. and can be reached at 1-833-427-5634. I am proud of the way everyone in our district has risen to the occasion and am more confident than ever in our ability to overcome this challenge. Stay well Skippers!
