Join us at Lakeland Community College to learn about our cybersecurity program and how security plays an integral role in developing technologies.

Featuring hands-on breakout sessions that include topics such as:
- Foundations of success in information technology & computer science (IT&CS)
- Security considerations in all areas of IT&CS
- Pursue a career in technology
- Why Lakeland could be right for you

Lunch provided for all student participants.

Register today, only 100 seats are available!
