

Fairport Harbor Calamity Day

In Fairport Harbor, student safety is always our top priority.

When our region receives a blast of winter weather it is often accompanied questions about school closing in the event of dangerous conditions. The decision regarding school closures begins early and involves multiple factors:

- Weather and Radar Reports
- Reports from School and Village Reports
- Input and discussions with superintendents from neighboring districts.

Parents can always choose to keep their children home if they truly feel there is a weather-related safety risk. These absences will be recorded as excused, with make-up work provided to the student, if the Superintendent designates the day as a Severe Weather Day in the school district.

Please do not hesitate to contact the district if you require additional information in this regard.

William Billington
Superintendent
